

ELOs at CHS

Reach Beyond the classroom!

Have a project idea? A career you would like to explore? An online or alternative course or certification you would like to receive credit for?

Extended Learning Opportunities empower students to take an active role in determining the path of their education by adding a unique and personalized project to their school experience. An ELO plan defines how the project works, the related competencies, and what is expected to complete the ELO. We offer four ELO options: Career Exploration ELOs, Community Service ELOs, Structured Experience ELO, and the incredibly personalized but demanding Build Your Own ELO.

Our team is eager to assist students in every manner possible to build an ELO that both excites and motivates them to learn.

difference!**

21st CCLC

The goal of the Concord High School 21st Century Community Learning Center program is to raise student academic achievement and social-emotional growth by providing students with academic enrichment opportunities as well as additional activities designed to compliment their regular academic program. Concord High School's 21st CCLC provides a range of high quality services to support student learning and development, including tutoring and mentoring, homework help, academic enrichment and community service opportunities, as well as music, arts, sports and cultural activities.

We are a drop in program, meeting daily in the Student Center (café) for sign in. We serve healthy snacks and provide transportation home for Concord students.
